We understand that you have IT, marketing and planning needs; the key for us is to find a fit between our products and services and your needs, and we know there's a fit.

We've been working diligently to improve our websites and catalogs. The admin portion of both systems is an incredibly user-friendly GUI (Graphic User Interface). The admin area allows you to edit all areas of text, add/remove pictures, and change formatting as quickly and easily as any word processing software would.

NEXTEP has officially been striding forward as a company for nearly 18 months now and we're working hard to find new and better ways to take your business to the next step.

We have also added a new discount program for all charities and not-for-profit organizations; offering 20% off almost all of our products and services. Please contact us for further details.
